

Rosie Ranson MSc (Hons)

Qualifications:

BSc (Hons) Human Geography

MSc (Hons) Chartered Town Planning

Company Role:

Rosie is responsible for administrative and business support at Pager Power, specifically in the context of project management and commercial logistics.

Rosie's role underpins the business in general but is predominantly focussed on optimising the efficiency of the technical team.

Rosie's experience and qualifications in planning have expanded the team's understanding of our client requirements in a wider context.

Company Experience:

Rosie is the company lead in the following areas:

- Management of client proposals
- Commercial management of client orders
- Internal training – UK planning system
- Project and customer management systems (internal)

Publications:

Rosie has produced news articles and editorials covering various topics including:

- Climate Change and the Planning System
- Solar panels and new-builds
- Recyclable turbine blades
